

smartSOURCE

Your Single Stop for Primary Source Verification (PSV) Reports

smartSOURCE brings all the primary source reports you need right to your fingertips. Simply select from the primary sources available through smartSOURCE, click "Submit" and all requested reports will be returned in seconds. You'll no longer need to search multiple Web-sites or submit queries one-by-one. SmartSource can be used in any of the three ways listed below to complement your credentialing process!

apply SMART

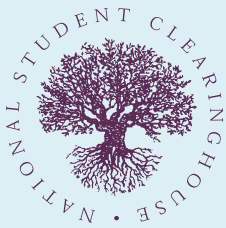

1. Receive all your PSVs with our online application processing solution!

cred SMART

2. PSV reports pre-populate directly in your CredSmart system!

Your Credentialing System

3. Upload provider data to smartSOURCE from your software system!
